No. 25

Omineca Get Attention Mining Circles

The past year chief attention was directed to the placer workings in the Cariboo or Barkerville area. Several important companies have got under way and are either turning out gold bricks or are about to turn them out. Some important developments have taken place with every promise of dividends in the near future.

Next year the chief attention of the mining world will be directed to the Omineca country, especially Manson creek and Germanson creek.

For several years companies have been getting properties and plants in shape for operation. The government of the province has lent assistance in the construction of roads. Last year twenty-seven miles of motor road north of Fort St. James were completed. By co-operation between the mining companies and the government another seventy miles of road were completed north and the road is being rapidly put into Manson creek, via Slate creek where the Consolidated people have an important property. Other large companies that will enter the shipping field are the Germanson Placers Ltd., and the Omineca Placers Ltd.

Other mining fields that are likely to add to the mineral wealth of the province are Hudson Bay mountain at Smithers where two properties are being developed, chiefly for their gold values, and one property at Usk under Capt. Killman for the Columario Co. Thus the immediate future for the interior does not look too dark, although there does not appear to be any property in this immediate vicinity likely to be operating. But those other camps will help. The Barkerville district will employ upwards of five hundred men, and it will not be long before the Omineca country will have a like number or even more.

HELD A SUCCESSFUL BAZAAR

The Ladies Aid of the United church in Hazelton held a very successful bazaar in the church on Friday evening last. While the crowd was not so large as in some other years, and as the amount of stuff offered for sale was not as much as other years, there was a fair attendance, and before the sale was over practically everything was cleaned up. In addition to the fancy work which the ladies had done there was a tea room which was kept going until quite late and it was responsible for quite a nice sum of money. Then there was the candy booth and the home cooking stall, both of which did quite a business, and of course hoop-la was attractive. There was no program in connection with the affair. The ladies took in something over \$80.00.

ANTI-SKIDDING SUGGESTION

I would like to pass on something of great help to the public in your valuable journal. In British Columbia we have some very long steep grades on our highways and also sharp curves without railings or anything to stop a car from going down in some places hundreds of feet. After a snow, thaw or rain and a subsequent freezing of the roads become like ice and many people refuse to drive under these conditions. Here is a suggestion that I have found very helpful under these circumstances, particularly in going up or down hills.

Let the air pressure down until the tires show a bulge of about one inch more than usual. For instance, a tire that normally carries 32 pounds let down to about 15 pounds, or a truck that would carry 80 pounds let down to 30 pounds. During the cold weather

EDUCATION WEEK IN TERRACE

Schools and Staffs Addressed by Dr. Mills and E. T. Kenney—Good Turnout of Citizens

At two o'clock on Thursday afternoon at the Kitsumgallum public school the combined high and public school pupils and staffs were addressed by Dr. Mills and E. T. Kenney on the subject "Education". The meeting was held in connection with the B. C. Education week, but had been postponed one week because of the influenza epidemic.

Dr. Mills traced the history of education from the earliest attempts at writing to the present well organized and efficient systems of education. Mr. Kenney showed the advantages of an education and urged the students to take full advantage of the opportunities offered them.

Mr. C. Michial principal of the public school, chairman, expressed the appreciation of the schools for the very able and instructive addresses.

Collided at the Cut

Mr. and Mrs. Elder were in a nasty car accident on Friday afternoon when on the way home and running along rock cut on the Terrace side of the big bridge, they collided with the Swain Transfer truck. The truck was loaded with wood, and while it received some damage the lighter car was the most severely injured. Fortunately no one was hurt.

For years the public works department has been asked to straighten out the road around the rock cut points. From time to time promises have been made but there it ended, except for a little done on the relief plan last year. The local people are getting fed up with asking for something which any public works official or engineer may see is a necessity. But the probability is the department will let things ride until a number of people are killed and there are suits for damages, etc.

There is no excuse for delaying the job. There are lots of men on relief quite capable of doing the work, and the government has a large quantity of powder that is only going to waste.

TERRACE BASKETBALL

Playing a fast game, the Terrace Hobos, defeated the high school boys to the tune of 54-18 in the senior men's games on Saturday night. The high school lads put up a stiff fight but lacked the experience to stop a whirlwind drive led by Thomas early in the second half. Wren starred for the high school boys, but lacked the necessary support. These lads are improving.

In the senior girls games the Wildcats were unable to hold the Hicks and finished on the short end of a 23-8 score. Sophia McLaren netted most of the baskets for the winners and had a lot of support. The Wildcats played somewhat erratic ball and require careful coaching. Velma Greig was best on the losing side.

The junior boys division put up a fast little game when the Bulldogs defeated the Panthers 8-6. C. Michie handled the whistle and D. Kerr was timekeeper.

The club has been somewhat disappointed in the local support but asks for better support next Saturday when Vanarsdol is expected to meet the Hobos in the feature game.

The Omineca Herald is \$2.00 per year

er little or no harm is done to tires running them under-inflated. I have heard of motorists having to walk miles to obtain fuel to get a tow up a hill or assisted after being nearly killed by terrible skidding.—F. G. Martin, Martin's Garage, Hazelton, B. C.

Crate Feeding For the Market Very Profitable

There are three important factors in the crate feeding and proper finishing of poultry which should be brought to notice at this time of the year, viz., how to feed; and what to feed. The poultry feeding authorities of the Department of Agriculture at Ottawa supply the following information on these points:—

How Long to Feed

Just for how long a period the crate feeding should be continued depends upon the birds and the market. Some birds will stand feeding longer than others. As a rule it takes at least 3 weeks to change the texture of the flesh. There may be birds, however, that will not stand more than ten days. These should be taken out just as soon as it is noticed that they are not eating well. Other birds will stand it for four or five weeks, and for a special market it may pay to feed for this length of time. But as a rule the best gains are made during the first two or three weeks, and many prefer to feed no longer than this time.

How to Feed

In crate feeding poultry one should bear in mind that the primary object is to raise the quality of the birds into the "Milk-fed" class grades, for which the highest prices are assured. What is meant by "Milk-fed" is set out under Poultry Grades further on in the pamphlet issued by the department.

Some of the general facts that are to be born in mind are:—Whole grains should never be fed; all grain feed is to be ground as finely as possible; the feed should be kept palatable and for this purpose a little salt or molasses may be added to the ration; a mixture of grains give best results as the birds will not tire of a variety as quickly as they will of one grain; All feed should be given in a wet state, mixed to the constituency of thin porridge so that it can be poured from a pail or dipped out with a flat laddle or shingle; the best material for mixing the dry ingredients of the ration are, in order of relative value, home-made butter milk, commercial butter milk powder, or semi-solid butter milk, sour milk or skim milk; better results are obtained when the milk used in mixing, is sour and when fed is mixed one meal ahead. All ground feeds should have the coarse hulls removed.

What to Feed

The ration used in feeding must be palatable and one which will produce flesh without costing too much. Suitable rations which have been tested by the Poultry Division are:—

- 1—Equal parts middlings, ground oats and barley.
- 2—Equal parts middlings, ground oats and chopped raw potatoes.
- 3—Equal parts of middlings, ground oats and mashed potatoes.
- 4—Equal parts of middlings, ground oats and cornmeal.
- 5—Equal parts of shorts, and ground hullless oats or groats and ground barley.
- 6—Equal parts of low grade flour ground barley and ground oats.
- 7—Equal parts of ground whole wheat, ground whole oats, ground whole barley.
- 8—Recommended by the commercial feeders:—two parts of finely ground oats (which must be fully mature and weighing 34 pounds to the bushel or more) with one part of finely ground buckwheat.

Note—All grain used should be finely ground, and all the coarser hulls removed.

Almost every farm has available a supply of grains suitable to crate feed-

THE LATE RICHARD CARR, REMO

One of the First Settlers of the District Passed Away on 29th of last month—Well Known

The friends and neighbors of Mr. Richard Carr learned with regret of his passing away on November 29th in the Prince Rupert Hospital. He had been ailing for the last month and on Saturday last was taken to the hospital. Mr. Carr, with his cheery smile and pleasant personality, will be very much missed by all in Remo. He was one of Remo's first settlers, having arrived here in the spring of 1908 and has resided here continuously, except during the time he was overseas with the C. E. F. He was also a veteran of other wars and was in his younger days a follower of the sea. While in Remo he devoted his time to farming and horticulture and was one of the bigger shippers of garden truck and fruit to Prince Rupert. The funeral arrangements were in charge of the B. C. Undertakers.

DON'T WANT FAT HOGS

It is particularly difficult in these days of lots of feed and low prices to get farmers to realize that the market does not want a fat hog, at least not a hog of the fatted type so popular a decade or so ago. The hog that takes the premium today is the select bacon type, which is, comparatively speaking, a lean hog weighing 180 to 220 pounds off cars at stockyards. Such hogs have a jaw and shoulder light and smooth, a back from neck to tail evenly fleshed, a side long and dropping straight from the back, a belly showing thickness of fleshing, a flank well let down and firm, a ham full, and a good general finish with no excess fat. The best way to understand the type of hog that gets the dollar premium is to visit a stockyard or abattoir or grading station where hog grading is being done and see for yourself the type of hog that nets the dollar premium for the producer.

NOTES ON FEEDING HOGS

Grind all grain. Fine grinding is recommended, especially for young pigs. Soak meal mixture between the pigs meals; do not use too much water but feed as a relatively thick slop.

While there may be different methods of feeding hogs the use of a good tight trough is safe and reduces wastage. Fresh, clean water should be provided between meals. Pigs should be fed three times daily for at least one to two weeks after weaning; two feeds daily will then be sufficient.

Growing pigs are very fond of and can make excellent use of green feed. For winter feeding pigs relish a little fibrous matter to chew and they need it regularly. Give the second crop of clover or alfalfa or any well-cured grass or cereal crop that has been cut green. The desirable effect of feeding a little mangels daily are too well known to need further comment. The important thing is to see that all pigs except the very young, get some form of vegetable matter regularly. Pigs that do not have access to earth should have a box of it in their pens. This is as cheap as it is desirable and will be consumed sparingly and regularly. Laying up a supply of sods in the fall provides a good mineral supplement for winter fed pigs. Make your feeding count with a balanced ration. If milk in some form is not available feed tankage as a protein supplement.

Have you paid your subscription yet?

ing of poultry. Farmers all over Canada are finding it increasingly worth while to market more of their coarser grains through the medium of poultry.

Early Morning Fire at Stewart Business Sect.

At two o'clock on Tuesday morning fire broke out in Stewart which destroyed the greater part of the business section including the Stewart Hotel, the Stewart News, a general store, a drug store, a butcher shop and other businesses. The whole block went up in smoke. By using dynamite the provincial liquor store was saved. Some of the businesses and owners of buildings were partly covered by insurance.

The hour of two a.m. and always a hotel, beginning with the Hazelton hotel, then the New Hazelton hotel and now the Stewart hotel, is quite a coincidence.

The destruction of the Stewart News marks the first newspaper office to go up in flames for many years, so far as the north is concerned, if it is not the first. Our sympathy is extended to Bro. Rolston in his loss.

REV. J. S. BRAYFIELD RETIRES

Many Years in the Anglican Ministry—Will Reside in Telkwa—Has Recently Been at Anyox

The Alice Arm Herald reports as follows:—"At the end of the present month Rev. J. S. Brayfield of Christ Church, Anyox, retires from active service in the ministry after a total length of service in the United States and Canada of 45 years. His record is noteworthy. After leaving England he was for nineteen years in Manitoba, following which he spent fourteen years in the United States, chiefly in North Dakota, in the Episcopal Church. He next answered a call to British Columbia, his time in this province being twelve and a half years, nearly half of which has been spent in Anyox. Although over seventy years of age Mr. Brayfield is hale and hearty and possesses a clearness of thought and vigor of speech many younger men might envy. He retires on a pension provided by the American Church to which he belonged, and to which he has continued to contribute. He will, with Mrs. Brayfield, make his home on a ranch near Telkwa. They will both be greatly missed in the community and the best wishes of their many friends will go with them to their new home."

Rev. Mr. Brayfield was in charge of the Anglican church at Telkwa for a number of years at Telkwa before going to Anyox. He and Mrs. Brayfield have some good friends in the Bulkley Valley who will welcome them back to the old stamping ground.

H B C GIVES CHRISTMAS HAMPERS TO NEEDY FAMILIES

The Hudson's Bay Company will give Christmas hampers to needy families in Hazelton District, on your vote. Simply fill in a ballot obtainable at H B C, Hazelton, giving the name of the family you consider the most deserving and hand it to the clerk before December 23rd.

The hampers containing dressed turkey or chicken, vegetables, fruits, nuts and candy, will be delivered free all cost to the four families receiving the greatest number of votes.

The Woman's Auxillary of St. Matthews church had a sale of home cooking and a bean supper in the Canadian Legion hall on Saturday. The C. G. I. T. girls co-operated with the cooking sale. A cake put up by the girls for guessing the weight brought in a nice little sum at a nickle a guess, and the winner turned it back to the girls to be sold at auction. It brought another \$1.50. The Auxillary are satisfied with the financial returns.

Mr. Farmer

here's why you
should read your
newspaper.

In the first place of all, Mr. Farmer, you are interested in this district because it is the logical market for the greater part of your produce you have to sell. New Hazelton and district people are the consumers of what you have to sell, and you, being the producer of what they must buy, are a person of mighty importance to them. You have a common bond.

Anything, then, that affects the local towns or its people affects you by affecting your market. Anything that affects the farmers of this interior country has a vital bearing on the business life and general status of New Hazelton and district. We are, after all, one in point of view, economically.

In presenting the news and other items of interest each week The Omineca Herald is guided by this thought. Items of interest regarding any phase of farm work or life are published, together with the news of the whole district, so far as it can be got. Besides the buying opportunities listed by the stores there is a classified column which should be of special interest to farmers. Make use of it.

You are also kept continually in touch with what is occurring in New Hazelton and the interior, socially, industrially and in the mining circles which The Omineca Herald presents each week.

Mr. Farmer, you should be a careful reader of The Omineca Herald every week. Are you? The cost is but 4 cents a week. If you are not already a subscriber, clip the special offer coupon below and mail or bring it into The Omineca Herald office with 50c. which will give you the Omineca Herald for 3 months. DO IT NOW.

THE OMINECA HERALD, New Hazelton, B.C.

Enclosed please find 50c as subscription to The Omineca Herald for 3 months. At the end of that time I will notify you if I wish it discontinued.

A MESSAGE TO YOUNG MEN

Here let Sir Joseph Flavelle speak. This, his message to young men of Canada, appeared in the Financial Post, which paper recently celebrated its twenty-fifth birthday:—

"The story of life's accomplishment is the story of improvement in men who accept struggle in good heart and determined spirit.

"However disturbing the outlook in the immediate future, you have no cause to fear if you play the game with high courage, and do not leave out cheerfulness. Whatever happens, you must not fail to have a stout heart, preserve good cheer, and retain a sense of individual responsibility to your fellows and to your country.

"I have a conviction that most of the things worth while in life come to us as by-products, rather than from effort especially directed to that end. May you wisely learn that contentment comes from character and purpose and is produced by a state of heart and mind and not necessarily by a state of pocket.

"The loyalties of life are amongst our most noble possessions, and in no small measure establish the measure of our manhood, loyalty to our homes, our friends, our associates, our business, our convictions, our country. It will mean much to you and to your service to the country when you come to believe that your relation to all of these is not chiefly what they will give you, but what you will bring to them; week.

not in what you get, but in what you give. It is in this you will confirm your measure."

BANKERS ADVISE ADVERTISING

In a recent issue of the American Bankers Magazine, which is the organ of the banker's association of the United States, strongly advises businessmen, no matter what their line of activity, to use newspaper advertising, says the Nelson News. The Bankers Magazine, in the quotation below, emphasises, not only the direct benefit to the advertiser, but the indirect benefit to the community as a whole from which every advertiser profits, resulting from the increased business which is done by a community as a consequence of the people in the surrounding trading area being fully informed of the service the various business houses have to offer:

"No business man in any town should allow a newspaper published in his own town or community to go with out his name and his business being mentioned somewhere in its columns. This does not mean that you should have a whole, a half or even a quarter page advertisement in each issue of the paper, but your name and business should be mentioned, if you do not use more than a two line space.

"A stranger picking up a newspaper should be able to tell what business is represented in a town by looking at the paper. This is the best possible town advertiser. The man who does not advertise, his business does an injustice to himself and the town. The man who insists on sharing the business that comes to town, but refuses to advertise his own is not a valuable addition to any town. The life of a town depends upon the live, wide-awake and liberal advertising businessmen."

Mrs. T. B. Campbell has been a patient at the Hazelton Hospital the past week.

Mining in British Columbia

Among the Canadian Provinces, British Columbia is the leading producer of Lead, Silver and Zinc.

In this Province about 45% of Canada's Silver, 97% of the Lead and 93% of the Zinc are produced.

British Columbia has produced approximately \$1,300,000,000 worth of minerals.

About 200,000 square miles of unexplored mineral-bearing lands are open for prospecting.

Practically every mineral known to be found on the continent occurs to some extent in British Columbia.

Christmas, Trans-Atlantic Style

Christmas, whether it be ashore or afloat, as a season, looms almost as largely on the horizon of Steamship Companies as on that of Santa Claus himself. Schedules must be planned months in advance for those who want to cross the Atlantic for Christmas in either direction, and above all, copies of the sailing lists have to be sent to the old Saint in time for him to plan his visits to the ships at sea. This year, from the Canadian side the Canadian Pacific liner "Duchess of Atholl" sails from Saint John December 15th, thus giving her passengers a chance to arrive in the Old Country in time to hear the Waits and Carol Singers on Christmas Eve.

Looking for Canadian children Santa Claus will visit the "Montrose", also of the Canadian Pacific, two days out from Saint John, on her way to England. It is strongly suspected by those in the know that a scene such as that shown above, which is a familiar feature of Christmas festivities on all Canadian Pacific liners, will be enacted by Chief Steward Leith, of the "Montrose", aided by cotton whiskers and the spirit of Christmas.

The Omineca Herald [New Hazelton, B. C.]

Miss Symms of Vancouver, who was visiting friends in the Ootsa Lake district, spent a day or so with Mrs. Roy Guss the first of the week. Miss Symms was enroute home.

At the meeting of the W. A. to the H. H. held at the nurses residence on

Tuesday afternoon Miss Craig was appointed secretary for the next two months in place of Mrs. W. W. Anderson, who has gone to Rupert. The W. A. also placed an order for linoleum for two wards of the hospital and for a bolt of sheeting. The annual meeting will be held about the 6th of Jan.

Doings Around Home

Of interest to you and your friends

WANTED—One Berkshire Boar from six months to one year old.—Apply to Tony Grecco, New Hazelton, stating price.

Olof Hanson, M. P., and Mrs. Hanson, have sailed from Ottawa to spend the Christmas season at their old home in Sweden. They will be back in Ottawa in time for the reassembling of parliament.

The young people of New Hazelton have been having a lot of sport on the skating rink the past week. They got a very fine sheet of ice on the McMullen pond and it has not taken much labor to keep it clear of snow thus far.

Mrs. W. S. Sherriffs left last Saturday morning for Vancouver where she will remain until Mr. Sherriffs gets squared away following the fire which wiped out their store and living quarters a short time ago.

The schools of the district will close for the Christmas holidays a week from next Friday, Dec. 16, and they will reopen on January 3rd.

Victoria government has passed a decree that Monday following Christmas and Monday following New Years shall be observed as public holidays in B. C. It will not be necessary to observe the usual half holidays during those two weeks.

Mr. Lilly of Edmonton spent the latter part of last week in town adjusting the fire losses.

Miss Moxley of Prince Rupert is a guest this week of Mrs. Geo. D. Parent.

J. LeM. Jandron of the Hudson's Bay Co. at Winnipeg, spent a few days at the Hazelton post.

The Canadian Airways plane that spent the last week or so at Mission Point, got away Sunday afternoon enroute to Carcross. It had been delayed by weather conditions, and it was delayed some place along the route as it did not report at Carcross until after lunch on Monday.

Mrs. E. M. Moore of North Battleford, who has been a guest of her sister, Mrs. Geo. Benson, all summer, has returned to her home.

The W. A. to the H. H. held a meet-

ing on Tuesday afternoon to appoint a secretary to act during the absence of Mrs. W. W. Anderson.

Robt. Hunter of the Royal Bank of Hazelton, spent the week end in Hazelton after completing his business for the bank at Smithers, and this week he proceeded to Prince Rupert.

The Ladies Aid of the United church in Hazelton will meet on Thursday afternoon to wind up the bazaar business.

The thermometer took a drop Tuesday morning after breakfast and the first cold snap of the season was just around the corner. It was just four degrees above zero and a dirty east wind was blowing. At Smithers it was reported ten below zero Tuesday a.m.

F. M. Dockrill of Telkwa has passed successfully the preliminary examinations held by the Professional Engineers Association of B. C.

The promised cold snap that peeked around the corner Tuesday morning, was not like "prosperity just around the corner", the cold snap came right around with its chest sticking out and wanted to know "what about it?" It was around a dozen degrees below zero at 8.30 a.m. and no particular sign of moderating. But the silver lining is a little sunshine every day, something sadly missing since last August, with very few breaks.

A scientific menu for five people for a week has been published, and the total cost per week for a man and his wife and three children is 5.06½c and that provides for buying everything. In a country like this where everyone has their own vegetables, gather much wild fruit and generally have their own chickens, and many have a pig or so and some have cows, the cost can be cut considerably, and a greater variation given to the menu. The menu published in the Province last Saturday is a good wholesome one and does not vary a great deal from what the average person enjoys.

The flu epidemic continues in parts of the district but it is generally of a mild nature. For the first couple of days the patient is sick, but not suffering after that.

The Omineca Herald is \$2.00 a year
